

Guidelines for Parents attending the summer holiday club

Covid 19

Due to Covid 19 there are measures that we have to adhere to as set out by the States of Jersey government. These have been put in place to allow us to open and allow your children to be with us in a safe environment.

Things that will be quite different from previous years and may change subject to us exiting the various stages of lockdown.

We are allowed to have bubbles of 27 or less depending on the space we can use in the school, this will allow the children to move around freely and give the children the opportunity to explore the activities in the provision.

It is really important that should your child have underlying health conditions you will need to get clearance from your GP for them to attend our club. A copy of this would need to be shown to add to your child's records or a doctors note would also be sufficient.

Please do not send your child in after administering medication for a temperature, as mentioned we will have to follow a procedure. If your child develops a temperature at home keep them at home. If they are sent in this will mean that all the children and staff in the bubble will have to self-isolate until a safe return is issued, so this may mean closure of the club.

Travel, now the borders are opening please adhere to the guidelines given and if you need to self-isolate until your test results come back PLEASE do not send your child into us. If someone in our care develops symptoms this could ultimately wipe out the whole club as we are operating as one bubble. Please be mindful of this as we have all the children and staff to consider.

- To avoid large gathering of parents and children you will be allocated an entrance to bring your child to, these will be allocated at the front of Grouville school and this will be sent to you before you attend, Please be patient as we will have a lot families trying to enter possibly around the same time, please use the markings to ensure that there is adequate distance between each family. You will not be allowed to enter the school.
- The arrivals will be between 8am-9am , the doors will be locked after this time and re opened at the end of the sessions for a short period.
- If you are not on site within these times or you find that the front door is locked you will be able to call the club number(**07797 855996**) which will be the main front door of the school.

- Your child will be allocated a coloured so they will have a staff member who will be responsible for them whilst they are with them, these will be smaller groups within our bubble to help us keep on top of regular handwashing etc. If you have any questions regarding your child you will be able to speak to the staff member directly at drop off or collection.
- We are not allowed to provide a snack or any food for your child, we have been advised against any food preparation. You will have to provide two snacks and a lunch. If you are attending a full day (6.00pm) or a school day session (3.30pm). One snack and a lunch is required for the morning session (1pm). Please provide sufficient drinks for the duration of the time the children are with us, and a refillable drinks bottle that can be filled up throughout the day.

On hot days we will be allowed to provide the children with an ice pop.

- There will be no sharing of any items. You will have to provide your child with the following named items
 - a) A refillable named water bottle
 - b) Suncream (preferably a spray bottle to make this easier for your child to apply themselves)
 - c) A names sunhat is essential, or there will be no outdoor play.
 - d) A change of clothes and essential footwear trainers are ideal, no flip flops as these are not ideal from climbing and playing.
 - e) A towel
 - f) A packed lunch with a cooling pack inside. Plus two substantial snacks.
Please ensure all items are labelled.

Please ensure that there is adequate food for your child, as it is not a school day and the children will be very active all day, previously little giants were able to give an after noon snack or biscuits, treats etc or more food when the children were hungry, we are not permitted to do this.

We would appreciate your full co-operation with the above as it is a scary time for all of us, we want to give your child the most enjoyable time with us especially after the changes they have had over the period of lockdown. We must make sure we adhere to the guidelines so it is safe for all of us, **We can only do this with your co-operation.**

Please take the time to explain to your child/children about the changes and how important it is for them to adhere to the rules and to maintain good levels of handwashing whilst in our care.

If this is your first time in our holiday club and you think your child may have difficulty leaving you in the morning, do please let us know, you are not allowed into the setting to settle them or to have any days to settle beforehand due to the restrictions. If we are aware of this beforehand, and I am sure all the children will be anxious after the period of change that

they have had, however if we are aware we will try our best to encourage them into the club without you.

or have any questions or concerns please contact our operations manager Vicki on bookings@littlegiants.org.je or myself on angela@littlegiants.org.je
